“PaperX” by Lufthansa Cargo

No paper on specified lanes

Lufthansa Cargo pushes towards 100% eFreight by focusing on possible **paperless lanes** for **pure EAW shipments**.

This applies for general cargo; excluding special cargo.

As eAWB is well-established, **no eAWB related process changes** are required for “PaperX”.

Goal: All shipments to be declared as **EAW** and **delivered** to airline **without accompanying paper documents**.

3 easy steps to “PaperX”

1. Book eFreight!

Never deliver paper-AWB for transport!

2. Use EAW instead of EAP!

EAP = eFreight **with**
acc. transport-
relevant paper docs

EAW = eFreight
without acc.
paper docs

3. If EAP – NO on-pouch docs!

(except Certificates, CITES, License, Permit)

Focus lanes at Lufthansa Cargo between following origin-destination-combinations:

AMS | BKK | BOM | DEL | HKG | KIX | MIL | SIN | TLV | VIE

Germany: FRA | MUC | HAM | MUC | STR | DUS | HAJ | BER | NUE |

CGN | FMO | BRE | DRS | LEJ | PAD

Please note: Paperless (EAW) is also possible for other destinations!

Your eFreight benefit

- 100% eFreight enables forwarder **to remove documents and/or pouch** from handling processes involving forwarders, airlines, GHA and Customs
- Pure EAW shipments **simplify all workflows** (e.g. focus to freight handling, not documentation; allow upfront preparation of delivery)
- With completely paperless shipments, data is always in the lead. Thus 100% eFreight enables **sustainable data driven optimizations** internally and for the whole supply chain

Digital pouch approach

@ Origin

Forwarder

@ Destination

Import Agent/Broker

Send pre-alert documentation **electronically** to **import agent, broker** and / or **consignee**, if needed

Receive **invoice and packing list electronically**, print only if needed
