

Electronic House Manifest (eHM)

eHM completely replaces paper house manifest

After eAWB, the next step towards 100% eFreight is introducing the **electronic house manifest (eHM)**.

This process is **recommended by IATA since 2014.**

The house manifest (also known as cargo- or consol manifest) lists all information of the house air waybills (HAWB) for each consolidated shipment. **eHM replaces paper house manifests** or consol manifests with electronic messages (FHL or XFZB).

Customer pouches, which contain original HAWB for example, remain unaffected.

Scope

- On-pouch paper house manifest
- Exclusion: in-pouch house air waybills still to be handled according to customs regulations (TACT rules)

Prerequisites

- Activated eAWB account and usage of eAWB
- Excellent FHL/XFZB quality
(analyzed as per our data quality service for eHM)

Process

- Replace paper house manifest by high-quality electronic message (FHL/XFZB)
- House manifest data will be verified at goods acceptance (or within PreCheck)

Booking

- After account activation for eHM by Lufthansa Cargo every eAWB consol shipment is a possible eHM shipment
- No further steps required during the booking process

With eHM activated, please ensure to not deliver paper house manifest anymore!

More detailed information on this and further eFreight topics are available at
