

Passive Temp Support

by Lufthansa Cargo

Elevating temperature control with our new Thermo Covers

Benefit from Thermo Covers to smooth out temperature peaks and thus safeguard the temperature of your cargo.

With the introduction of the new thermo covers, Lufthansa Cargo aims to enhance the quality of the Product **Passive Temp Support** to protect pharmaceutical shipments and further temperature-sensitive shipments even more from extreme weather conditions during transportation. As a future new product feature, it will be available to our customers free of charge.

Key Facts:

- **What:** All lose Passive Temp Support shipments on Main Deck & Lower Deck. ULDs and Thru units are excluded.
- **When:** May to September. An expansion is currently under consideration.
- **Where:** From and to FRA for the following stations: **Atlanta, Cairo, Chicago, Toronto** and as soon as the service can resume **Tel Aviv**. An evaluation of expansion is currently analyzed.
- **Costs:** The use of covers is free of charge.

You can find more details about Passive Temp Control and our Products, Speeds and Add-On Services on the **Lufthansa Cargo website**.
